

src/planner/tests/tester.hpp

```
graph BT; A[src/planner/tests/test_kinematics.cpp] --> C[src/planner/tests/tester.hpp]; B[src/planner/tests/test_planner.cpp] --> C;
```

A diagram illustrating file dependencies. At the top is a gray box containing the header file path 'src/planner/tests/tester.hpp'. Below it are two white boxes. The left box contains 'src/planner/tests/test_kinematics.cpp' and the right box contains 'src/planner/tests/test_planner.cpp'. Two blue arrows point from the top of each white box to the bottom of the gray box, indicating that both source files include the header file.
